

CONVEYORS & AUTOMATION

POLYSTEEL® Conveyor Systems safely transport the material from one level to another which when done by human labor would be strenuous & expensive. Can be installed almost anywhere & are much safer than using a forklift or other machine to move materials & can move materials of all size, shape & weights. For ease of handling variety of options are available depending upon the requirement.

- Belt Conveyor systems
- Flexible Gravity conveyor
- Powered Conveyor
- Vibratory conveyor
- Trolley conveyor
- Slat Chain & matt chain conveyors
- Chain Conveyor

Along with customized automated solutions like **PICK & PLACE** etc...

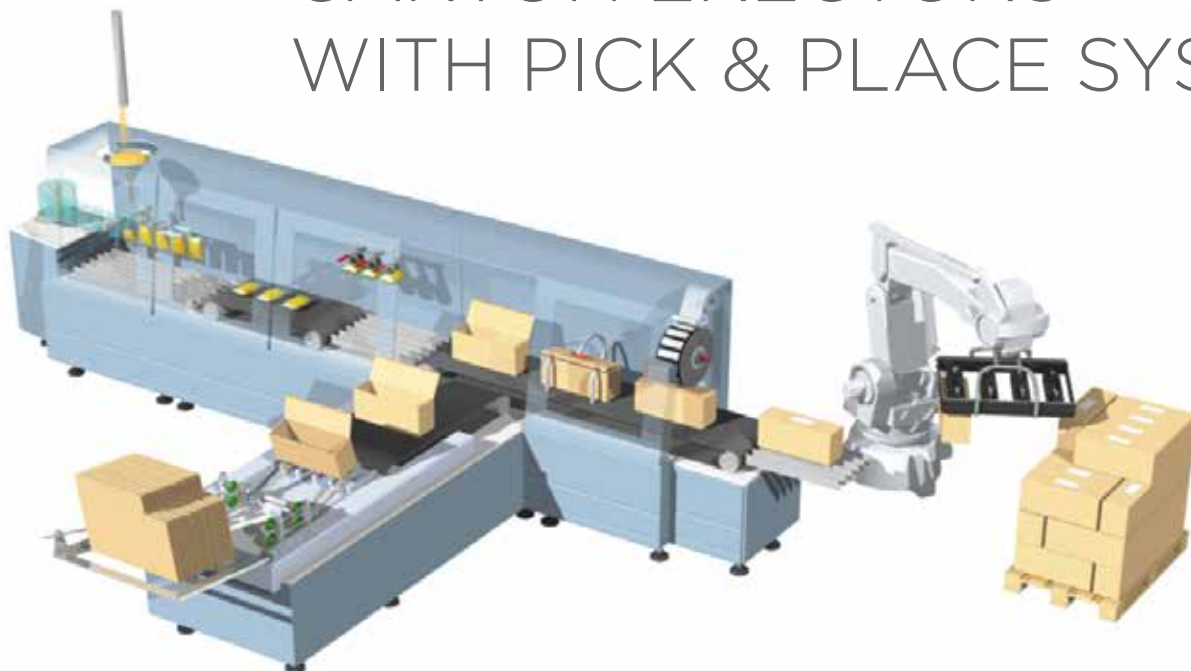

PICK & PLACE SYSTEMS

We design and consult on improvement of existing packaging systems and also have been continuously improving its (speed and simplified design/construction) such as pick & place, grippers, tray & wrapping and many such customized designs.
